Company Profile

About us

We are Meshllo

Crafting Inspiring & Transformative Digital Experiences

At Meshllo, we empower businesses through cutting-edge technology with over half a decade of expertise in digital transformation. Starting as a small team, we've grown into 80+ professionals delivering custom software, cloud solutions, and microservice-enabled platforms. Serving clients globally across the US, Canada, UAE, and Australia, our mission is to accelerate growth by crafting innovative, scalable solutions tailored to each business. With a focus on driving impactful results, we are your trusted partner in navigating the future of digital innovation.

meshllo

Business Model

Project Based

- Free consultation.

- Detailed project plan with a fixed-cost pricing model.

- Quality Assurance & Testing is included.

- End-to-end project solution with source code handover.

START

Project Requirements

Project requirements are received (either high level or with complete details). This can be through email in a format preferred by the client.

Requirement Analysis

Engineering team of Meshllo will review the requirements. Technology preferences will be discussed with the client.

Requirement Discussion

Meshllo will share estimation with the client or arrange discussion sessions to understand the overall project requirements.

Continuation of the Project

The Design & engineering team will progress according to plan, delivering milestones to the client through scheduled follow-up meetings.

Project Start

Projects will start in due time/ mutually agreed time upon approval of the project plan and quotation by the client.

Project Plan & Quote

A formal project plan and quotation is submitted to the client for approval.

Project Completion

Project will end in due time once all the deliveries are approved by Client.

Billing Cycle

Project is billed at the end of each month or the entire project as per the approved plan.

Project End

Project will end once Meshllo submits and the client approves all the deliverables.

END

meshllo

Business Model

Staff Augmentation

> Get to choose from a 1000+ pre-vetted talent pool.

> We will match the skill-set requirements & qualifications required for the resource.

> There will be oversight from a development & project manager to assist the resource.

> Flat monthly rate per resource, invoiced at the end of each month.

> This model allows you to have dedicated remote resources/teams.

START

Skill Set Requirements

Our client will send the skill-set requirements for a dedicated resource.

Requirement Analysis

Engineering team identifies the best resource who fits the skill-set requirements

Requirement Discussion

Resource profiles are shared upon request. Interview or test projects are done to assess the quality of the resource.

Resource Management

Meshllo will provide oversight to maintain resource productivity and ensure efficient service.

Resource Assign

An average of 150 hours will be dedicated per month per resource.

Agreement Signing

Master Service Agreement is shared with all the terms and conditions. An official start date is mentioned to start the engagement.

Work Review

Weekly timesheets and update of work progress will be shared with the client to review ensuring full transparency

Billing Cycle

Invoices will be sent at the end of each month for the work that has been delivered. Clients will have 3-5 days to pay the invoices

End of Engagement

The engagement will continue till the client provides a prior written notice to scale down or terminate the contract

END

Business Model

Recruiting Partner

› **Offering:** Act as the hiring partner, managing the entire recruitment process, from sourcing to placement.

› **Added Value:** We streamline the hiring process, including conducting interview sessions, testing candidate skills, and ensuring the right fit.

› **Terms of Engagement**
  - One-Time Placement Fee: Charged upon successfully placing a resource.
  - Partner Fee: 15% of the placed resource's annual salary.
  - 30-Day Replacement Warranty: Free replacement if the candidate leaves or is terminated within 30 days.
  - Contract period: Clients are required to sign a one-year contract to engage our services as their recruitment partner.

START

Sharing of Job Description

Client will share the JD of the resources needed

End-to-End Recruitment

We handle sourcing, interviews, and candidate testing, ensuring a smooth and efficient hiring experience

Final Placement

We manage the final offer and ensure a seamless onboarding process.

END

meshllo

**Intellectual Property**

Rights to Intellectual Property

1. All source codes, legal documents, and any other formal documentation created for or provided to us by the client remain the property of the client.

2. All materials associated with a project are given to the client once it has been completed.

3. No information or materials will be shared without the client's permission in writing.

4. As an extended team, we work similar to a remote employee, therefore we do not have any ownership rights over the work done for our clients.
